INVESTING IN CULTURAL DIVERSITY AND INTERCULTURAL DIALOGUE

UNESCO This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.

MANUAL OF TESTS AND CRITERIA

The Manual of Tests and Criteria contains criteria, test methods and procedures to be used for classification of dangerous goods according to the provisions of Parts 2 and 3 of the United Nations Recommendations on the Transport of Dangerous Goods, Model Regulations, as well as of chemicals presenting physical hazards according to the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). As a consequence, it supplements also national or international regulations which are derived from the United Nations Recommendations on the Transport of Dangerous Goods or the GHS. At its ninth session (7 December 2018), the Committee adopted a set of amendments to the sixth revised edition of the Manual as amended by Amendment 1. This seventh revised edition takes account of these amendments. In addition, noting that the work to facilitate the use of the Manual in the context of the GHS had been completed, the Committee considered that the reference to the "Recommendations on the Transport of Dangerous Goods" in the title of the Manual was no longer appropriate, and decided that from now on, the Manual should be entitled "Manual of Tests and Criteria".

EASY ACCESS TO HISTORIC LANDSCAPES

The aim of this guide is to help property owners and managers provide easier access for all their visitors, whatever their age or level of ability. It will also be of value to designers, planners, and others working to open up historic sites to a wider audience. This revised edition of the guidance, prompted by the implementation of the Equality Act 2010, promotes an inclusive approach to ensure that every visitor to a historic park, garden or landscape has a meaningful experience. It should be made clear, however, that its primary focus is on providing better access for people with disabilities. Encouraging a much broader range of communities to enjoy and participate in the care of historic parks and gardens is an equally strong priority but one that falls outside the scope of this current document. This document replaces our 2005 version.
