EARLY FREUD AND LATE FREUD

READING ANEW STUDIES ON HYSTERIA AND MOSES AND MONOTHEISM

Routledge Ilse Grubrich-Simitis, well-known as a Freud scholar and editor of Freud's works, has long advocated a return to his original texts in order to comprehend fully the power and innovative force of his theories. In *Early Freud and Late Freud* she examines the earliest psychoanalytic book, *Studies on Hysteria*, which Freud wrote together with Breuer, and *Moses and Monotheism*, Freud's last book. The essay on *Studies on Hysteria* reveals to the reader why that book is indeed the 'primal book' of psychoanalysis. Not only does it offer a moving and dramatic account of the birth of the psychoanalytic method, but by introducing the key concept of trauma it establishes a foundation on which much of modern psychoanalysis has been built. Freud was to return to his original theory of trauma in his last book, *Moses and Monotheism*, where he developed it further in the light of his intervening researches. On the basis of her study of the *Moses* manuscripts and by applying the psychoanalytic method, Ilse Grubrich-Simitis shows how contemporary traumatic events in Nazi Germany may have influenced this return to the beginning and the intensification of Freud's self-analysis. This in turn was to lead to new insights into archaic forms of defence, pointing the way forward for modern psychoanalysis. Elegantly constructed and persuasively argued, *Early Freud and Late Freud* re-establishes the importance of two major Freudian texts, offering a new understanding of their significance.

CRAP CVS

Penguin UK Application for Employment I refer to the recent death of the Technical Manager at your company and hereby apply for the replacement of the deceased manager. Each time I apply for a job, I get a reply that there is no vacancy but in this case I have caught you red-handed and you have no excuse because I even attended the funeral to be sure that he was truly dead and buried before applying. Attached to my letter is a copy of my CV and his death certificate. Crap CVs is a hilarious compilation of the worst job applications imaginable, including overly-honest cover letters, embarrassing typos, mortifying personal revelations, awkward interview questions, misplaced self-confidence, self-aggrandizing gibberish, blatant truth-twisting and, of course, outright lies.

THE UK PESTICIDE GUIDE 2020

By far the biggest change to The UK Pesticide Guide in 2020 is the loss of a number of active ingredients that have been fundamental to many crop protection programmes. The final use-up of chlorothalonil formulations; propiconazole, fenpropimorph, chloridazon and diquat occurs in 2020 but there are also a few exciting new additions. Aclonifen is a new residual herbicide for use in potatoes that already has a number of EAMUs for use in minor crops. BASF is launching its new triazole, mefentrifluconazole, which promises to restore full triazole activity, at least initially. On the insecticide front the new active ingredient from Corteva agriscience, sulfoxaflor, is now listed for use in Cucurbitae and ornamentals under full protection for control of aphids and whitefly.
