DECONSTRUCTING THE NYSTCE

A TEACHER'S GUIDE TO PASSING THE EAS AND THE CST STUDENTS WITH DISABILITIES

Xlibris Corporation The NYSTCE pedagogical exams are designed according to the Constructivist Learning Theory. Although many teachers have studied aspects of Constructivism in their college programs, including Piaget, Bloom, Vygotsky and Gardner, the connection between these theorists is not always clarified. This book teaches you the correct approach for deconstructing the questions on the exam in order to pick the correct answer. This study guide is designed to help prospective teachers understand this theory and how it applies to learning. The strategies are easy to understand and are the key to passing these State exams. The book covers strategies for decoding the questions and outlines for writing a strong essay as well as common mistakes that teachers make when taking the exams. This time, pass the exam!

STRENGTHENING FORENSIC SCIENCE IN THE UNITED STATES

A PATH FORWARD

National Academies Press Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

FRANKENSTEIN (MODERN ENGLISH TRANSLATION)

Carefully edited for modern readers to allow for easier reading Obsessed with the secret of creation, Swiss scientist Dr. Victor Frankenstein cobbles together a body he's determined to bring to life. And one fateful night, he does. When the creature opens his eyes, the doctor is repulsed: his vision of perfection is, in fact, a hideous monster. Dr. Frankenstein abandons his creation, but the monster won't be ignored, setting in motion a chain of violence and terror that shadows Victor to his death. Mary Shelley's *Frankenstein*, a gripping

story about the ethics of creation and the consequences of trauma, is one of the most influential Gothic novels in British literature. It is as relevant today as it is haunting.

TEACHER EDUCATION ACROSS MINORITY-SERVING INSTITUTIONS

PROGRAMS, POLICIES, AND SOCIAL JUSTICE

Rutgers University Press The first of its kind, Teacher Education across Minority-Serving Institutions brings together innovative work from the family of institutions known as minority-serving institutions: Historically Black Colleges and Universities, Tribal Colleges and Universities, Hispanic Serving Institutions, and Asian American and Native American Pacific Islander Serving Institutions. The book moves beyond a singular focus on teacher racial diversity that has characterized scholarship and policy work in this area. Instead, it pushes for scholars to consider that racial diversity in teacher education is not simply an end in itself but is, a means to accomplish other goals, such as developing justice-oriented and asset-based pedagogies.
