MAP OF THE SOUL 7

PERSONA, SHADOW & EGO IN THE WORLD OF BTS

Chiron Publications *Beyond summarizing the three volumes on Persona, Shadow and Ego in the Map of the Soul series, this latest book explores the entire BTS album, start to finish, revealing profound insights into the collective psyche of BTS. The title of BTS's latest album, Map of the Soul: 7, captivates the mind with its suggestive and alluring imagery. It came as a surprise to many fans. Expected was an album that would follow upon Map of the Soul: Persona with songs about Shadow or Ego. While the new album does indeed include songs with these themes, it is much more complex and broader in vision than expected. The number 7 suggests mystery. It catches the mind's attention with its symbolic significance. What does this number mean in relation to the idea of a "map of the soul?" This book dives into this mystery and explores the unconscious reaches of our mind. Fans of BTS from around the world will marvel at the depth of meaning in the songs contained in Map of the Soul: 7. They take the listener into deep reflection upon the meaning of striving and ambition, the dangers of worldly success, and the amazing resiliency of the human spirit to recover and go on despite the pitfalls on life's journey. The songs themselves function as a map for souls who are setting out in life and engaging in challenging relationships. The songs are reflective, mirroring what we find within ourselves in our struggles to become and to thrive. When you stand on the threshold of a new land, it is useful to have a map as your guide. The great psychologist of the 20th Century, Carl Jung, created a Map of the Soul that many people in his time found more than a little helpful, even lifesaving. It is even more so now, for people in the 21st Century, caught in the profound complexities of modern life. Armed with this*

map, people are better able to find their way successfully through life's journey. Today, BTS is putting this map into the hands of their fans. For this great service we are profoundly very grateful.

THE PROTEST PSYCHOSIS

HOW SCHIZOPHRENIA BECAME A BLACK DISEASE

Beacon Press A powerful account of how cultural anxieties about race shaped American notions of mental illness The civil rights era is largely remembered as a time of sit-ins, boycotts, and riots. But a very different civil rights history evolved at the Ionia State Hospital for the Criminally Insane in Ionia, Michigan. In *The Protest Psychosis*, psychiatrist and cultural critic Jonathan Metzl tells the shocking story of how schizophrenia became the diagnostic term overwhelmingly applied to African American protesters at Ionia—for political reasons as well as clinical ones. Expertly sifting through a vast array of cultural documents, Metzl shows how associations between schizophrenia and blackness emerged during the tumultuous decades of the 1960s and 1970s—and he provides a cautionary tale of how anxieties about race continue to impact doctor-patient interactions in our seemingly postracial America. This book was published with two different covers. Customers will be shipped the book with one of the two covers.

MAP OF THE SOUL - PERSONA

OUR MANY FACES

Chiron Publications There is a lot of interest in today's culture about the idea of Persona and the psychological mapping of one's inner world. In fact, the interest is so strong that the superstar Korean Pop band, BTS, has taken Dr. Murray Stein's concepts and woven them into the title and lyrics of their latest album, *Map of the Soul:Persona*. What is our persona and how does it affect our life's journey? What masks do we wear as we engage those around us? Our persona is ultimately how we relate to the world. Combined with our ego, shadow, anima and other intra-psychic elements it creates an internal map of the soul. T.S. Eliot, one of the most famous English poets of the 20th Century, wrote that every cat has three names: the name that everybody knows, the name that only the cat's intimate friends and family know, and the name that only the cat knows. As humans, we also have three names: the name that everybody knows, which is the public persona; the name of that only your close friends and family know, which is your private persona; and the name that only you know, which refers to your deepest self. Many people know the first name, and some people know the second. Do you know your

secret name, your individual, singular, unique name? This is a name that was given to you before you were named by your family and by your society. This name is the one that you should never lose or forget. Do you know it?

PSYCHOPATHY WITHIN

Chiron Publications *Psychopathy Within* offers a new way of conceptualizing and defining psychopathy that is a convergence of the author's divergent professional experiences as a forensic psychologist and a Jungian-oriented psychotherapist and her personal life experiences over decades as a Jungian student and analysand. When her father died, the story of his life and their relationship ignited her curiosity about the meaning of psychopathy, enriching and amplifying what she already felt she knew from a wide range of experiences, study, and observations. The result is an invitation to explore this charged topic, psychopathy, with a new perspective that holds the potential for growth and healing. At the heart of the story is the power of eros—the devastating ramifications of its absence and the tremendous healing energy of its presence. "Eve Maram's *Psychopathy Within* brings a cogent synthesis of Jungian and forensic perspectives, uniquely presented both clinically and from personal experience. A well-researched approach to psychopathy is followed by a vision for potential healing, providing hope and useful advice, and making this a valuable resource not only for clinicians, but anyone confronted with a psychopathic situation." -Robert Hinshaw "This book is an expression of the Feminine principle of Eros. Guiding us through the labyrinths of the human heart in its experience of psychopathy, an experience described qualitatively by Dr. Eve Maram as a sense of something deep within that is missing and that exists in a dormant continuum with all of us, Dr. Maram draws on her experiences as a forensic psychologist, a Jungian therapist, and most centrally, a daughter to a father who suffered from psychopathy, to challenge the strict separation of "us" and "them" in diagnostic criteria and in relationship. Beyond the yearnings to make logical sense of psychopathy, she eloquently expresses the ways in which Eros, or the Feminine Principle, is often missing or devalued in both professional work and in personal life. Authentic, not sentimental, engagingly written and filled with personal story, Dr. Maram's genuine feeling and her capacity to communicate it is what makes this book a gem and a much needed contribution to accepting and healing the dark and cold, frozen dimensions of ourselves. By going consciously into dark experiences of psychopathy with love, appreciation for symbol, compassion, and a touch of humor, Dr. Maram shows us the gold, the possibility of authentic life, that lies hidden in what seems most unacceptable and most destructive to ourselves and others."

-Thomas Elsner, J.D., M.A., Jungian Analyst Eve Maram is a clinical and forensic psychologist and a Jungian-oriented psychotherapist in private practice in Orange, CA. She is currently pursuing Jungian analytic training through the InterRegional Society of Jungian Analysts (IRSJA), C.G. Jung Institute of Santa Fe, New Mexico.

THE HISS OF HOPE

A VOYAGE WITH PARKINSON'S TOWARD AN INTIMATE AUTONOMY

Chiron Publications Parkinson's Disease; chronic illness; intimate autonomy; psychology; Jungian psychology From the initial port of a relating pattern with Parkinson's Disease consisting of the usual fight, flight, freeze or the book's new 'fall' structural methodology, the author takes off on a voyage harboring cryptic intimations about being "with" an illness, about a less ego accentuated interacting. This remarkable transmutation happens gradually. A re-molding takes place during the course of an eight year journey. The nucleus of this book is a descriptive narrative of this journey, of a voyage to the paradoxical space of an intimate autonomy. Even though THE HISS OF HOPE is about living with a chronic disease, the book does not dwell on a life of suffering and desperation, but rather, it also depicts the adventure leading to places, to encounters and to depths of experience that would not have been possible without first having been ambushed by Parkinson's. Today's Zeitgeist seems to be pregnant with dark and fearful hints of impending disasters. This book suggests an intimate autonomy as a culturally integrable relating pattern to cope with life in the first half of the 21st century. And with death. With a grateful nod to Parkinson's Disease and its initial rupture of her life, the author concludes her book with a generous smile. The sparkle of the 'before' space links to the calm radiance of the 'after'.

And the sibilant hiss, reveals itself as a dynamic third between hope and no-hope: a concurrent unity of an intimate togetherness and an autonomous separateness. A beginning asserts itself at the end. Parkinson's reacts with a wise and iconic grin.

MAP OF THE SOUL - SHADOW

OUR HIDDEN SELF

In this second book in the series, *Map of the Soul - Shadow: Our Hidden Self*, Dr. Murray Stein explores the dark recesses of our psyche, as well as the shadow images in BTS' latest songs in their album *Map of the Soul: 7*. The Korean Pop band, BTS, has been taking the world by storm with a series of albums inspired from Dr. Stein's concepts titled *Map of the Soul*. Dr. Stein has joined them in expressing these same Jungian themes in a companion book series. The landscape of the soul has many contours and some hidden regions. This book speaks about obscure, typically unacknowledged aspects of the psyche. The shadow may appear initially like an unwanted intruder but those who become acquainted with their shadow discover it to be a vast storehouse of treasures and resources on the journey of self-discovery. Whereas the persona is the part of your personality that is revealed to others, the shadow is the part of your personality that is concealed from others and ourselves. The shadow often declares itself through sudden, often brutal reversals. At the collective level, the shadow proves capable of magnetizing people in the same direction, often with very destructive results. The person intent on living a more full, authentic life will be well served by becoming acquainted with the shadow. Dr. Stein and the collaborators, Sarah Stein, Steven Buser, and Leonard Cruz, are deeply indebted to BTS, whose world-wide popularity points to their remarkable ability to tap into universal themes that dwell in the collective domain. BTS' music inspired this work and we hope this work will inspire others to explore the deep recesses of their inner life. JUNG'S RED BOOK FOR OUR TIME

SEARCHING FOR SOUL UNDER POSTMODERN CONDITIONS VOLUME 2

Chiron Publications Edited by Murray Stein and Thomas Arzt, the essays in the series Jung's Red Book for Our Time: Searching for Soul under Postmodern Conditions are geared to the recognition that the posthumous publication of *The Red Book: Liber Novus* by C. G. Jung in 2009 was a meaningful gift to our contemporary world. "To give birth to the ancient in a new time is creation," Jung inscribed in his Red Book. The essays in this volume continue what was begun in Volume 1 of Jung's Red Book for Our Time: Searching for Soul under Postmodern Conditions by further contextualizing *The Red Book* culturally and interpreting it for our time. It is significant that this long sequestered work was published during a period in human history marked by disruption, cultural disintegration, broken boundaries, and acute anxiety. *The Red Book* offers an antidote for this collective illness and can be seen as a link in the aurea catena, the "golden chain" of spiritual wisdom extending down through the ages from biblical times, ancient Greek philosophy, early Christian and Jewish Gnosis, and alchemy. *The Red Book* is itself a work of creation that gives birth to the old in a new time. This is the second volume of a three-volume series set up on a global and multicultural level and includes essays from the following distinguished Jungian analysts and scholars: - Murray Stein and Thomas Arzt Introduction - John Beebe *The Way Cultural Attitudes are Developed in Jung's Red Book* - An "Interview" - Kate Burns *Soul's Desire to become New: Jung's Journey, Our Initiation* - QiRe Ching *Aging with The Red Book* - Al Collins *Dreaming The Red Book Onward: What Do the Dead Seek Today?* - Lionel Corbett *The Red Book as a Religious d104* - John Dourley *Jung, the Nothing and the All* - Randy Fertel *Trickster, His Apocalyptic Brother, and a World's Unmaking: An Archetypal Reading of Donald Trump* - Noa Schwartz *Feuerstein India in The Red Book Overtones and Undertones* - Grazina Gudaite *Integrating Horizontal and Vertical Dimensions of Experience under Postmodern Conditions* - Lev Khagai *The Red Book of C.G. MAP OF THE SOUL-EGO

I AM

In *Map of the Soul - Ego: I Am*, Dr. Murray Stein explores the beginnings of consciousness and the concept of the "I," as well as the evocative lyrics from the Korean Pop band BTS's album, *Map of the Soul: 7*. BTS's album series titled *Map of the Soul* was largely inspired by Dr. Stein's presentation of C.G. Jung's groundbreaking psychological insights. Ego is the center of consciousness. Yet, "ego can separate itself from the body, and then become a virtual reality in its own right." This book is an overview of the ego from a Jungian perspective but also is a rich and nuanced examination of how the creative spark can ignite and sustain meaningful psychological growth. The author and collaborators are deeply indebted to BTS, whose world-wide popularity points to their remarkable ability to tap into universal themes. BTS's music inspired this work and this introductory series of books may inspire others to explore their inner life. Table of Contents 1. Introduction 2. BTS and Outro: Ego 3. JUNG'S RED BOOK FOR OUR TIME

SEARCHING FOR SOUL UNDER POSTMODERN CONDITIONS VOLUME 3

Chiron Publications Edited by Murray Stein and Thomas Arzt, the essays in the series *Jung's Red Book for Our Time: Searching for Soul under Postmodern Conditions* are geared to the recognition that the posthumous publication of *The Red Book: Liber Novus* by C.G. Jung in 2009 was a meaningful gift to our contemporary world. The Red Book can be considered as a contribution to the "Golden Chain" (aurea catena) of the world's imaginative literature reaching back to the ancient Sumerian Epic of Gilgamesh. As Jung describes this tradition in a letter to Max Rychner, "Faust is the most recent pillar in that bridge of the spirit which spans the morass of world history, beginning with the Gilgamesh epic, the I Ching, the Upanishads, the Tao-te-Ching, the fragments of Heraclitus, and continuing in the Gospel of St. John, the letters of St. Paul, in Meister Eckhart and in Dante." The Red Book extends the "Golden Chain" into our era. Each of the 18 essays in this third volume of the series, *Jung's Red Book for Our Time*, is unique, and all of them converge on the central theme of the relevance of *The Red Book* for people today in search of soul under postmodern conditions. This is the third volume of a multi-volume series set up on a global and multicultural level and includes essays from the following distinguished Jungian analysts and scholars:
