MODERN METAL DETECTORS

RAM U.S.A., Publications and Distribution This book has been extremely useful to me in understanding all there is to know about metal detectors. To a beginner this is absolute required reading, and for the experienced detectionist, it is still of profound value because of the advice that it gives. This book helped me purchase the right metal detector and following its advice paid for the book the first time I went out metal detecting after reading it. If you are only going to have only two or three books in your personal metal detecting library this one should be one of those two or three! Happy Hunting!

COUNTRY LIFE

THE YUGO

THE RISE AND FALL OF THE WORST CAR IN HISTORY

Hill and Wang Six months after its American introduction in 1985, the Yugo was a punch line; within a year, it was a staple of late-night comedy. By 2000, NPR's Car Talk declared it "the worst car of the millennium." And for most Americans that's where the story begins and ends. Hardly. The short, unhappy life of the car, the men who built it, the men who imported it, and the decade that embraced and discarded it is rollicking and astounding, and one of the greatest untold business-cum-morality tales of the 1980s. Mix one rabid entrepreneur, several thousand "good" communists, a willing U.S. State Department, the shortsighted Detroit auto industry, and improvident bankers, shake vigorously, and you've got The Yugo: The Rise and Fall of the Worst Car in History. Brilliantly re-creating the amazing confluence of events that produced the Yugo, Yugoslav expert Jason Vuic uproariously tells the story of the car that became an international joke: The American CEO who happens upon a Yugo right when his company needs to find a new import or go under. A State Department eager to aid Yugoslavia's nonaligned communist government. Zastava Automobiles, which overhauls its factory to produce an American-ready Yugo in six months. And a hole left by Detroit in the cheap subcompact market that creates a race to the bottom that leaves the Yugo . . . at the bottom.
