A child introduced to this program at age 4, by the end of kindergarten, will have a 1,979 word reading vocabulary, which consist exclusively of words that he or she can decode, sound-out and comprehend; at a solid 2nd grade skill level! And struggling readers will have gained equally measurable literacy skills. 'Like Mike' Pre-Kindergarten report card copy available for review, please request: ReadingLady411 (at) gmail (dot) com. Teaching reading correctly takes time, patience, skills and tools. Most adults, including teachers, don't have two or more of the necessary requirements. It's a slow step-by-step process that in order to achieve success, and do it right the first time, there can be no shortcuts, multitasking or grouping of learning processes. The Letter Sounds Save Their Soul Series is a 5-book training to read series that uses direct instruction to progressively build upon the absolute last skill mastered. By the conclusion of the book 5, readers will have sounded out, practiced reading and learned the meaning of 3,913 words, and be able to read at a solid 3.5 grade level or better. This training teaches that the sounds inside of these 3,913 words, and any words, fit neatly into 1 of 7 possible spelling patterns or sound families. Reader guardians and their students will have learned to instantly recognize and sound out these patterns, which translate into their being able to sound out and decode 3 - 4 times as many of the words learned in the "Letter Sounds Save Their Soul," learning to read training. Level 1 / Book 1 Recommended for new readers, pre-kindergarten, kindergarten and all learners reading below grade level. DESCRIPTION: Introduction to slide sounds, which are 14 unique letters that naturally slide one sound into the next. Students develop an automatic sound-out reading reflex and learn how to isolate and smoothly blend letter sounds. Within the level 1 series, developing readers are introduced to 33 words and 88 possible letter sound blends. Reading Mastery Time Estimate: Starting with Level One / Book 1, depending upon the amount of weekly hours of practice devoted to learning to read, with a minimum of 2 hours per week, the entire letter sound out program could take up to 20 months to complete, ending with level five / Book 5. At which point a competent capable student who can easily read anything will have emerged. Each level series features; sound out strategies, reading, writing, games, fluency and vocabulary building activities. Enables reader guardians to know exactly what books will support their child's current decoding abilities. Why do Blacks thrive when taught Direct Instruction? Author Vanessa Peters' suggest it's because of their sense of rhythm. By tapping into their natural ability to connect rhythm and sounds, direct instruction teaches minority children how to hear, manipulate and identify the smallest unit of letter sounds and naturally connect those sounds into the process of reading fluently. Tragically for minority students rarely are new teachers trained in direct instruction. Instead during their college years, training is focused on popular research studies and opinions of biased experts who discredit the necessity and success of direct instruction for African Americans

children. Opening with concrete evidence showing the meteoric rise and subsequent plummeting test scores of a model inner city school before and after DI, "Letter Sounds Save Their Soul" shows parents and guardians how to STOP the practice of turning Black children into illiteracy statistics. **Letter Sounds Save Their Soul: Book 2 Direct Instruction - Secret to Reading Success for African American Children CreateSpace** Of all the teaching to read methods, Black children's reading scores often excel national averages when first taught to read using Direct Instruction. Offering step-by-step illustrations, this reading primer series demonstrates a back to basics learning to read system called direct instruction which teaches readers how to attach meaning to letter sounds, as they learn to sound out words. The root or foundation sounds of the 26 letters of the alphabet are broken up into 4 primary categories and presented in great detail within the pages of Books 1 - 3. All other letter-sound possibilities are covered within advanced phonics (decoding) training and are available in Books 4 - 5. **Book 2: BOUNCE LETTER SOUNDS** Bounce sounds are 1-second sounds that 'bounce' out of your mouth and create one quick sound. "Think of holding these specific sounds for a 1-count beat." b . b . b . If you attempt to 'hold' or 'slide' any of these specific 7 letters, you'll end up unconsciously adding the slide letter sound 'u' sound or making 2-sounds, instead of one isolated sound. b . u . . . For many, this learned (bad) habit of adding an extra sound, greatly affects reading fluency and spelling. Adding extra sounds, while attempting to sound out and blend letters, increases decoding (sound-out) time and decreases comprehension, due to slower reading. As you can imagine, mastering isolating and blending this letter sound category can be very challenging, especially for readers not properly trained in blending. Why do Blacks thrive when taught Direct Instruction? Author Vanessa Peters' suggest it's because of their sense of rhythm. By tapping into their natural ability to connect rhythm and sounds, direct instruction teaches minority children how to hear, manipulate and identify the smallest unit of letter sounds and naturally connect those sounds into the process of reading fluently. at all. He's a refugee who's run away from a War. A real one. With bombs and fires

and bullies that hurt people. And the more I find out about him, the more I want to

help. That's where my best friends Josie, Michael and Tom come in. Because you see,

together we've come up with a plan. . . With beautiful illustrations by Pippa Curnick
