*U of Nebraska Press Vietnam and the Colonial Condition of French Literature explores an aspect of modern French literature that has been consistently overlooked in literary histories: the relationship between the colonies—their cultures, languages, and people—and formal shifts in French literary production. Starting from the premise that neither cultural identity nor cultural production can be pure or homogenous, Leslie Barnes initiates a new discourse on the French literary canon by examining the work of three iconic French writers with personal connections to Vietnam: André Malraux, Marguerite Duras, and Linda Lê. In a thorough investigation of the authors' linguistic, metaphysical, and textual experiences of colonialism, Barnes articulates a new way of reading French literature: not as an inward-looking, homogenous, monolingual tradition, but rather as a tradition of intersecting and interdependent peoples, cultures, and experiences. One of the few books to focus on Vietnam's position within francophone literary scholarship, Barnes challenges traditional concepts of French cultural identity and offers a new perspective on canonicity and the division between "French" and "francophone" literature.*

#### **SOUTH KOREAN SOCIAL MOVEMENTS IN THE 20TH CENTURY**

---

*PM Press Using social movements as a prism to illuminate the oft-hidden history of 20th-century Korea, this book provides detailed analysis of major uprisings that have patterned that country's politics and society. From the 1894 Tonghak Uprising through the March 1, 1919, independence movement and anti-Japanese resistance, a direct line is traced to the popular opposition to U.S. division of Korea after World War Two. The overthrow of Syngman Rhee in 1960, resistance to Park Chung-hee, the 1980 Gwangju Uprising, as well as student, labor, and feminist movements are all recounted with attention to their economic and political contexts. South Korean opposition to neoliberalism is portrayed in detail, as is an analysis of neoliberalism's rise and effects. With a central focus on the Gwangju Uprising (that ultimately proved decisive in South Korea's democratization), the author uses Korean experiences as a baseboard to extrapolate into the possibilities of global social movements in the 21st century. Previous English-language sources have emphasized leaders—whether Korean, Japanese, or American. This book emphasizes grassroots crystallization of counter-elite dynamics and notes how the intelligence of ordinary people surpasses that of political and economic leaders holding the reins of power. It is the first volume in a two-part study that concludes by analyzing in rich detail uprisings in nine other places: the Philippines, Burma, Tibet, China, Taiwan, Bangladesh, Nepal, Thailand, and Indonesia. Richly illustrated, with tables, charts, graphs, index, and endnotes.*

It explores the development of individual occupational narratives, community traditions and their roots in everyday experiences, offering a range of examples from distinctive populations to demonstrate approaches to forming sustainable occupational engagements. Chapters span such key areas as 'Experiences of Disaster', 'Social Inclusion', 'Disability and Participation', and 'Sexuality, Disability Cultures and Occupation'. ## ASCENT OF THE MOUNTAIN, FLIGHT OF THE DOVE

---

---

## AN INVITATION TO RELIGIOUS STUDIES (THIRD REVISED EDITION)

---

Transaction Publishers The essence of Ascent of the Mountain, Flight of the Dove remains intact: its vision of religious studies as sustained reflection on our lifelong voyage to discover who we are. The story we choose for ourselves, the story we live, can sacralize or secularize our lives and our world by the way in which we choose to relate to it. With this awareness of the story dimension of life, Ascent of the Mountain, Flight of the Dove opens us to awe, reverence, and wonder at the risks and possibilities of human freedom. This book is even more important than it was thirty years ago. We need religion to strike deeply into the self, away from public glare. Unless Americans become more sophisticated about the language of the self, inner life will shrivel. In addition, our people will continue to be vulnerable to fundamentalist movements. Such movements take over too many innocents. They promise, and sometimes deliver, a touching happiness. But they do so by closing the spirit in a powerful and dangerous way. Families and schools do not provide a large and critical vocabulary by which to express the inner longings of the spirit. The souls of many are parched and they gladly accept

water, any water, from those who offer it. The liberation of the religious spirit from trivial, closed, and simplistic systems of thought can only be achieved through the development of a critical language, exercises, and disciplines that open rather than close the mind, that lead to higher viewpoints, breakthroughs, and new syntheses, in a constant enlargement of spirit. Novak's book leads us to that place.

## THE CULTURAL LIFE OF THE AUTOMOBILE

---

### ROADS TO MODERNITY

University of Texas Press From its invention in Europe at the end of the nineteenth century, the automobile crisscrossed the world, completely took over the cities, and became a feature of daily life. Considered basic to the American lifestyle, the car reflected individualism, pragmatism, comfort, and above all modernity. In Latin America, it served as a symbol of distinction, similar to jewelry or fine clothing. In *The Cultural Life of the Automobile*, Guillermo Giucci focuses on the automobile as an instrument of social change through its "kinetic modernity" and as an embodiment of the tremendous social impact of technology on cultural life. Material culture—how certain objects generate a wide array of cultural responses—has been the focus of much scholarly discussion in recent years. The automobile wrought major changes and inspired images in language, literature, and popular culture. Focusing primarily on Latin America but also covering the United States, Europe, Asia, and Africa, Giucci examines how the automobile was variously adapted by different cultures and how its use shaped and changed social and economic relationships within them. At the same time, he shows how the "automobilization" of society became an essential support for the development of modern individualism, and the automobile its clearest material manifestation.
