## Continuity and Change in Irish Poetry, 1966–2010

Cambridge University Press In this book, Eric Falci reshapes the story of Irish poetry since the 1960s. He shows how polemical arguments concerning the role of poetry in 1960s Ireland evolve into a set of formal and compositional strategies for emerging Irish poets in the mid 1970s and beyond. His study presents a cohesive picture of the relationship between Northern Irish poetry from the Republic of Ireland since World War II and traces the lineage of lyric practice from a unique historical perspective. At the same time, it recontextualizes late twentieth-century Irish poetry within the long Irish poetic tradition, places Irish writing more accurately within the field of postwar Anglophone poetry and offers a new account of lyric's critical capacities. Of interest to Irish studies and twentieth-century poetry specialists, this book provides a much-needed guide to some of the most inventive and notable poetry written in the past forty years.

## Prince2 Foundation Training Manual

Thank you for reading our PRINCE2 Foundation Training Manual. The main objective of this book is to provide an easy-to-read and easy-to-understand PRINCE2(R) Foundation training manual. The official PRINCE2 manual, "Managing Successful Projects with PRINCE2," is an excellent reference manual, but it is not a training manual and should not be used as one, as it is very difficult to comprehend and understand if you are new to project management. The official PRINCE2 manual also covers the complete Practitioner Syllabus, and it's impossible to know which parts are just focused on the PRINCE2 Foundation syllabus, so you have to read everything, which is not good if you are just studying for the foundation exam. Henceforth, this book is meant to be (and is) an easy introduction to PRINCE2 based on the Foundation syllabus, and it's quickly becoming the most read book for people wishing to learn about PRINCE2 and prepare for the foundation exam.

## Wild Goose Moon

## A Story of Love, Death, God, Sex and 1968

iUniverse "Molly Ivins, Texas columnist and wry observer of American culture, called 1968 'the year everything happened.' 1968 finds America engulfed in political and racial turmoil, assassinations, and a war seemingly without end. The year finds Tom Windham trying to deal with a few of life's basics - love, death, God, and sex. A sophomore at a conservative university in Dallas and the veteran of an

upbringing in a small East Texas town, Tom sits uncomfortably on the cusp of adulthood. He is joined there by his roommate Brandeis. Along with the young women in their lives, their college friends, and their families, they experience the joys, struggles and tragedies of the year on a human scale. While the events of the operatic year keep intervening, changes in American attitudes toward sex, race, women, war and religion are also reflected in Wild Goose Moon"--Publisher description.

## Chrysler's Turbine Car

### The Rise and Fall of Detroit's Coolest Creation

Chicago Review Press Offering a behind-the-scenes look into the world of automotive research and development in the 1960s, this engaging narrative traces the birth of Chrysler's alternative "jet" car and reveals the story behind its sudden and mysterious demise. Relying on extensive research and firsthand accounts from surviving members of the turbine car program—including the metallurgist who created the exotic metals for the engine and the test driver who drove it at Chrysler's proving grounds—this chronicle documents the bold development of an automobile with a jet turbine engine. In addition to running well on virtually any flammable liquid—including kerosene, vodka, heating oil, and Chanel N°5 perfume—the pioneering engines had one fifth the number of moving parts and required less maintenance than conventional engines. Despite the fleet's amazing performance over millions of miles by test drivers, Chrysler pulled the plug on the project and crushed almost all of the cars. The reasons behind the surprising end to the jet car fleet are finally explained here.

## Allies at Odds

## America, Europe, and Vietnam, 1961–1968

Rowman & Littlefield Publishers *Allies at Odds* examines America's Vietnam policy from 1961 to 1968 in an international context by focusing on the United States' relationship with its European partners France, West Germany, and Great Britain. The European response to America's Vietnam policy provides a framework to assess this important chapter in recent American history within the wider perspective of international relations. Equally significant, the respective approaches to the "Vietnam question" by the Europeans and Americans reveal the ongoing challenge for nation-states of transcending narrowly defined state-centered policies for a global perspective pursuant of common goals among the trans-Atlantic allies. Blang explores the failure of France, West Germany, and Great Britain to significantly influence American policy-making.

## "¡Mi Raza Primero!" (My People First!)

## Nationalism, Identity, and Insurgency in the Chicano Movement in Los Angeles, 1966-1978

Univ of California Press ;*¡Mi Raza Primero!* is the first book to examine the Chicano movement's development in one locale--in this case Los Angeles, home of the largest population of people of Mexican descent outside of Mexico City. Ernesto Chávez focuses on four organizations that constituted the heart of the movement: The Brown Berets, the Chicano Moratorium Committee, La Raza Unida Party, and the Centro de Acción Social Autónomo, commonly known as CASA. Chávez examines and chronicles the ideas and tactics of the insurgency's leaders and their followers who, while differing in their goals and tactics, nonetheless came together as Chicanos and reformers. Deftly combining personal recollection and interviews of movement participants with an array of archival, newspaper, and secondary sources, Chávez provides an absorbing account of the events that constituted the Los Angeles-based Chicano movement. At the same time he offers insights into the emergence and the fate of the movement elsewhere. He presents a critical analysis of the concept of Chicano nationalism, an idea shared by all leaders of the insurgency, and places it within a larger global and comparative framework. Examining such variables as gender, class, age, and power relationships, this book offers a sophisticated consideration of how ethnic nationalism and identity functioned in the United States during the 1960s and 1970s.

# Designing and Evaluating Usable Technology in Industrial Research

## Three Case Studies

Morgan & Claypool Publishers This book is about HCI research in an industrial research setting. It is based on the experiences of two researchers at the IBM T. J. Watson Research Center. Over the last two decades, Drs. John and Clare-Marie Karat have conducted HCI research to create innovative usable technology for users across a variety of domains. We begin the book by introducing the reader to the context of industrial research as well as a set of common themes or guidelines to consider in conducting HCI research in practice. Then case study examples of HCI approaches to the design and evaluation of usable solutions for people are presented and discussed in three domain areas: - item Conversational speech technologies, - item Personalization in eCommerce, and - item Security and privacy policy management technologies In each of the case studies, the authors illustrate and discuss examples of HCI approaches to design and evaluation that worked well and those that did not. They discuss what was learned over time about different HCI methods in practice, and changes that were made to the HCI tools used over time. The Karats discuss trade-offs and issues related to time, resources, and money and the value derived from different HCI methods in practice. These decisions are ones that need to be made regularly in the industrial sector. Similarities and differences with the types of decisions made in this regard in academia will be discussed. The authors then use the context of the three case studies in the three research domains to draw insights and conclusions about the themes that were introduced in the beginning of the book. The Karats conclude with their perspective about the future of HCI industrial research. Table of Contents: Introduction: Themes and Structure of the Book / Case Study 1: Conversational Speech Technologies: Automatic Speech Recognition (ASR) / Case Study 2: Personalization in eCommerce / Case Study 3: Security and Privacy Policy Management Technologies / Insights and Conclusions / The Future of Industrial HCI Research

## Women's Rights and Women's Lives in France,

## 1944-1968

Taylor & Francis Women's Rights and Women's Lives In France explores the everyday experiences of women between the liberation, and May 1968. In 1945, French women believed that a new era was beginning for them, in which they had finally won equality (the right to vote in 1944, equal pay and access to education and employment). But the new Republic considered that women's main role was that of motherhood. Competing visions of women's place had concrete implications for women's lives, influencing work, politics and ideals of femininity. Working from a wide range of sources, including women's magazines, prescriptive literature, political pamphlets, fiction and memoirs, and government reports, Claire Duchen follows the debates concerning women through twenty years, and grounds them in the changing social reality of postwar France.

## April 4, 1968

# Martin Luther King Jr.'s Death and How It Changed America

Hachette UK On April 4, 1968, at 6:01 PM, while he was standing on a balcony at a Memphis hotel, Martin Luther King, Jr. was shot and fatally wounded. Only hours earlier King -- the prophet for racial and economic justice in America -- ended his final speech with the words, "I may not get there with you, but I want you to know tonight, that we as a people will get to the Promised Land." Acclaimed public intellectual and best-selling author Michael Eric Dyson uses the fortieth anniversary of King's assassination as the occasion for a provocative and fresh examination of how King fought, and faced, his own death, and we should use his death and legacy. Dyson also uses this landmark anniversary as the starting point for a comprehensive reevaluation of the fate of Black America over the four decades that followed King's death. Dyson ambitiously investigates the ways in which African-Americans have in fact made it to the Promised Land of which King spoke, while shining a bright light on the ways in which the nation has faltered in the quest for racial justice. He also probes the virtues and flaws of charismatic black leadership that has followed in King's wake, from Jesse Jackson to Barack Obama. Always engaging and inspiring, April 4, 1968 celebrates the prophetic leadership of Dr. King, and challenges America to renew its commitment to his deeply moral vision.
